DEMOLITION WASTE RECYCLING

Trade Customers. if you are a registered business & have a current trading account you can dispose of builders/demolition waste at our facility.

All customers are welcome to dispose of the following waste, asbestos, tyres, concrete, plastic oil drums and cleanfill. Most scrap metal can be dropped off free of charge (conditions apply).

All procedures must be followed when disposing of hazardous or contaminated material, please ring the office for further information prior to bringing hazardous or contaminated material onto site.

A large selection of landscape materials is stocked on site and available for sale.

At a cost delivery can be arranged.

Eftpos or charge sales only.

No cash, paywave or creditcard sales.
